V2.0 — ULTIMATE EDITION

BRAND GUIDELINES — 2026

JARWIX

The shortcut to growth.

This is the brand bible. Every colour, word, and pixel — defined. No guessing. No improvising. Follow it.

01

MISSION & VISION

OUR MISSION

OUR VISION

To eliminate the gap between small businesses and enterprise-level digital growth — using AI, automation, and the raw hustle of a team that refuses to overcomplicate things.

A world where every ambitious business owner — regardless of budget or tech skill — has a growth engine running 24/7. No gatekeeping. No jargon. Just results.

CORE VALUES

⚡ **Speed Over Perfection**

🎯 **Outcome Obsessed**

🤖 **AI-First Thinking**

Ship fast. Iterate faster. Done beats perfect every time.

We don't sell hours. We sell growth. Every action maps to a result.

If a machine can do it better, let it. We automate everything we can.

🔥

Jugaad Mindset

Resourceful. Scrappy. We find a way when there isn't one.

02

BRAND OVERVIEW

Who We Are

An IT firm helping small-to-mid businesses worldwide grow online through AI-powered marketing, web design, and automation — without the tech headache.

Our Audience

Small-to-mid business owners in the US, UK, and India who need to grow online but don't have time for tech complexity.

Brand Feel

Premium. Bold. Energetic. Every touchpoint should feel like a company that moves fast and delivers results.

03

THE ORIGIN STORY

THE ENGINEER

It started with code, not campaigns.

An engineer who spent years building systems — writing logic, debugging at 3 AM, obsessing over efficiency. The kind of person who automated his own morning routine before most people hit snooze. But something was missing. The systems worked. The businesses using them didn't grow.

THE REVELATION

Marketing wasn't magic. It was a broken machine.

The deeper he went into the marketing world, the more he saw the cracks. Agencies overcharging. Businesses guessing. Small owners drowning in tools they didn't understand. Everyone was selling "digital transformation" — nobody was actually transforming anything.

THE FUSION

What if you brought an engineer's brain to marketing — and let AI do the heavy lifting?

That was the moment. Not a boardroom epiphany. A 2 AM realisation fuelled by chai and frustration. Blend the jugaad mindset — that raw, resourceful, "figure-it-out" energy — with the precision of AI. Don't just market. Build growth engines.

JARWIX IS BORN

The shortcut to growth. Not a shortcut that cuts corners — one that removes the unnecessary ones.

Jarwix became the answer to every business owner who said "I know I need to be online, I just don't know how." An AI-powered, no-BS growth partner. Part engineer. Part marketer. All hustle.

> *"We didn't start Jarwix to be another agency. We started it because every agency we saw was doing it wrong."*

04

COLOUR SYSTEM

Our palette is built on restraint. Near-black dominates. Signal orange ignites action — sparingly. Warm off-white creates breathing room.

Primary Gradient

Use on headlines, CTAs, hero sections, and key brand moments.

#0E0E0E
START

→ 120°

#FF5A1F
END

```
background: linear-gradient(120deg, #0E0E0E, #FF5A1F);
```

Aa

Base

#0E0E0E

RGB 14, 14, 14

Dominant surface. Backgrounds, overlays, footer. ~80% of every design.

Aa

Accent

#FF5A1F

RGB 255, 90, 31

The punch. One headline word, one CTA, one highlight per design. ~5% usage.

Aa

Light

#FFF5F0

RGB 255, 245, 240

Text on dark. Breathing space. Light sections. ~15% of every design.

Colour Usage Ratio

The restraint is what makes it feel premium. Dark dominates. Orange punches. Light breathes.

- Base — backgrounds, surfaces
- Light — text, breathing space
- Accent — one CTA, one headline word

Contrast Pairings

Light on Dark

✓ AAA

Light on Gradient

✓ AA

Dark on Light

✓ AAA

♿ Accessibility Standards

All text must meet WCAG 2.1 AA minimum (4.5:1 for body, 3:1 for large text). Our Base/Light pairing exceeds AAA (21:1). Never place accent orange text on light backgrounds without a dark container — orange on white fails contrast at body sizes.

Print Specifications

Base		Accent		Light	
HEX	#0E0E0E	HEX	#FF5A1F	HEX	#FFF5F0
RGB	14, 14, 14	RGB	255, 90, 31	RGB	255, 245, 240
CMYK	0, 0, 0, 95	CMYK	0, 72, 88, 0	CMYK	0, 4, 6, 0
PANTONE	Black 6 C	PANTONE	1655 C	PANTONE	Warm White C

05

TYPOGRAPHY

Two typefaces. One for impact. One for clarity. Never mix roles.

HEADLINES

HANSON BOLD

GROWTH

BODY

Quicksand

Regular 400 — We build the systems. You build the business.

→ Always UPPERCASE

→ Tight leading (line-height: 0.95–1.1)

→ Use for H1, H2, section titles

→ Never use for body copy

Fallback: Quicksand Bold, uppercase, letter-spacing: 0.05em

Semibold 600 — Automation isn't the future.

→ Weights: 400 (body), 600 (emphasis)

→ Default line-height: 1.6–1.75

→ Paragraphs, captions, UI elements

→ Never set in all-caps for body text

Type Scale

H1	64px / 4rem	JARWIX
H2	40px / 2.5rem	SECTION TITLE
H3	24px / 1.5rem	Card Heading

BODY	16px / 1rem	We build the systems. You build the business.
SMALL	14px / 0.875rem	Labels, captions, metadata

06

LOGO USAGE

The Jarwix logo is our most visible asset. Treat it with precision.

JARWIX

JARWIX

ON LIGHT BACKGROUNDS

JARWIX

ON GRADIENT BACKGROUNDS

Clear Space & Minimum Size

Clear space = height of the "J" icon mark (x). Maintain this padding on all sides.

Minimum size: 100px wide (digital), 25mm wide (print).

Logo Don'ts

Don't rotate

Don't reduce opacity

Don't recolour

Don't stretch

07

ICONOGRAPHY

Our icons are minimal, geometric, and always drawn with the brand gradient. Consistency is non-negotiable.

STROKE WEIGHT

2px stroke width at 48×48. Scale proportionally. Never use filled icons for UI.

CORNER RADIUS

Rounded corners always. Radius: 4px at 24px, 8px at 48px. No sharp edges.

GRADIENT USAGE

Brand gradient on featured icons only. Mono-colour (#FF5A1F or #FFF5F0) for inline UI.

SIZING

16 24 32 48

Standard sizes: 16px, 24px, 32px, 48px. Always sit on the pixel grid.

Sample Icon Set

MARKETING WEB SPEED CODE CLIENT GROWTH

08

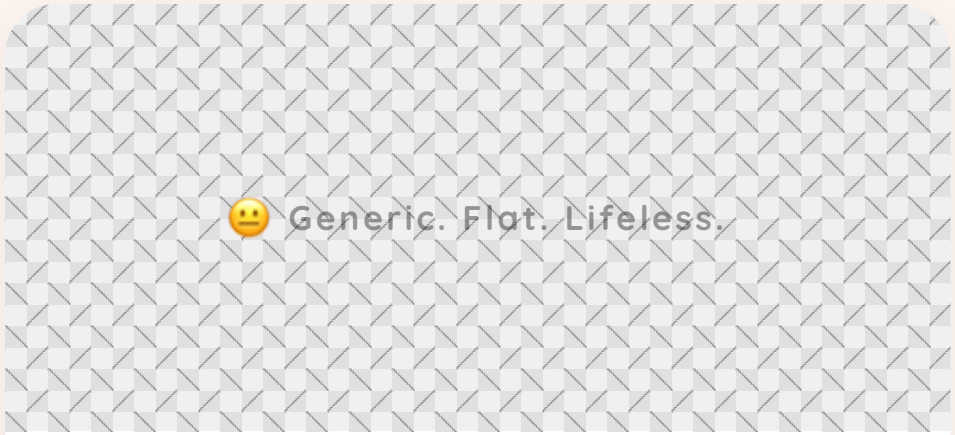
IMAGERY &

PHOTOGRAPHY

Our visual world is dark, bold, and cinematic. Every image should feel like it belongs in a premium brand — not a stock library.

✓ DO

- → Dark backgrounds with selective lighting
- → High contrast, deep shadows
- → Brand gradient overlays on hero images
- → Close-up detail shots of tech/workspaces



✗ DON'T

- → No bright white stock photography
- → No forced smiles or handshake photos
- → No generic office scenes with whiteboards
- → No low-res or pixelated images

→ Real people in real work environments

→ No images without brand colour treatment

Photo Overlay Treatments

Gradient Overlay

opacity: 70-85%

Dark Overlay

opacity: 75-90%

Fade to Content

top-down fade

09

VOICE & TONE

We sound confident, not arrogant. Clear, not clever. Every word earns its place.

✓ DO

- Short, punchy sentences. Two beats, then impact.
- Use contrast and parallel structure.
- Frame AI as what competitors already use.
- Sound confident and decisive.
- Lead with outcomes, not features.

✗ DON'T

- No corporate jargon (synergy, leverage, ecosystem).
- No hype or ALL-CAPS shouting.
- No over-explaining — cut anything with three commas.
- Never start with "In today's fast-paced world..."
- Don't use passive voice when active works.

Sound Like This

> *"Automation isn't the future. Your competitors are already using it."*

> *"We build the systems. You build the business."*

> *"You don't need more tools. You need the right system."*

Copy Templates

Fill-in-the-blank formulas. Use these to stay on-brand across every channel.

AD HEADLINE

Stop [pain point]. Start [desired outcome].

e.g., "Stop guessing. Start growing."

EMAIL SUBJECT

Your [thing] is [problem]. Here's the fix.

e.g., "Your website is invisible. Here's the fix."

INSTAGRAM CAPTION

[Bold statement]. [One-line proof]. [CTA] ↓

e.g., "Automation isn't optional. 73% of top brands already use it. Link in bio ↓"

LINKEDIN HOOK

I [did X] for [Y time]. Here's what nobody tells you:

e.g., "I ran paid ads for 4 years. Here's what nobody tells you:"

CTA BUTTON

[Action verb] + [Outcome]. Max 4 words.

e.g., "Get Your Growth Plan" / "Start Building" / "See Results"

TAGLINE FORMULA

[We do X]. [You get Y]. [No Z].

e.g., "We build systems. You build revenue. No guesswork."

10

CONTENT PILLARS

All content maps to one of four pillars. Every post, page, and campaign falls here.

01

MARKETING & ADS

Paid campaigns, strategy, ad creative, funnel design, and ROI-driven growth plays.

META ADS · GOOGLE ADS · STRATEGY

02

WEB & SEO

Website development, search optimisation, landing pages, and conversion-focused design.

SEO · WEB DESIGN · UX

03

CREATIVE & DESIGN

Visual branding, social media design, video content, and brand identity systems.

BRANDING · VIDEO · SOCIAL

04

AUTOMATION & AI

Workflow automation, AI chatbots, CRM setup, and operational efficiency systems.

AI CHATBOTS CRM

11

SOCIAL MEDIA

Platform-specific guidelines. Same brand, adapted for each stage.

INSTAGRAM

Feed Post	1080 × 1080px
Story / Reel	1080 × 1920px
Carousel	1080 × 1350px

Primary brand channel. Dark backgrounds. Bold headlines. Every post carries @jarwix.

FACEBOOK

Post Image	1200 × 630px
Cover Photo	820 × 312px
Story	1080 × 1920px

Long-form value posts. Case studies. Client wins. Slightly more professional tone.

LINKEDIN

Post Image	1200 × 627px
Article Cover	1280 × 720px
Banner	1584 × 396px

Thought leadership. Industry insights. Behind-the-scenes of AI workflows. Professional but never boring.

X (TWITTER)

Post Image	1600 × 900px

Header	1500 × 500px
Profile	400 × 400px

Hot takes. Quick tips. Thread-style breakdowns. Sharp, punchy, unapologetic.

Universal Social Rules

01 **@jarwix** handle visible on every post. Bottom-right corner preferred.

02 Dark mode first. Light variants only for carousel interiors or contrast slides.

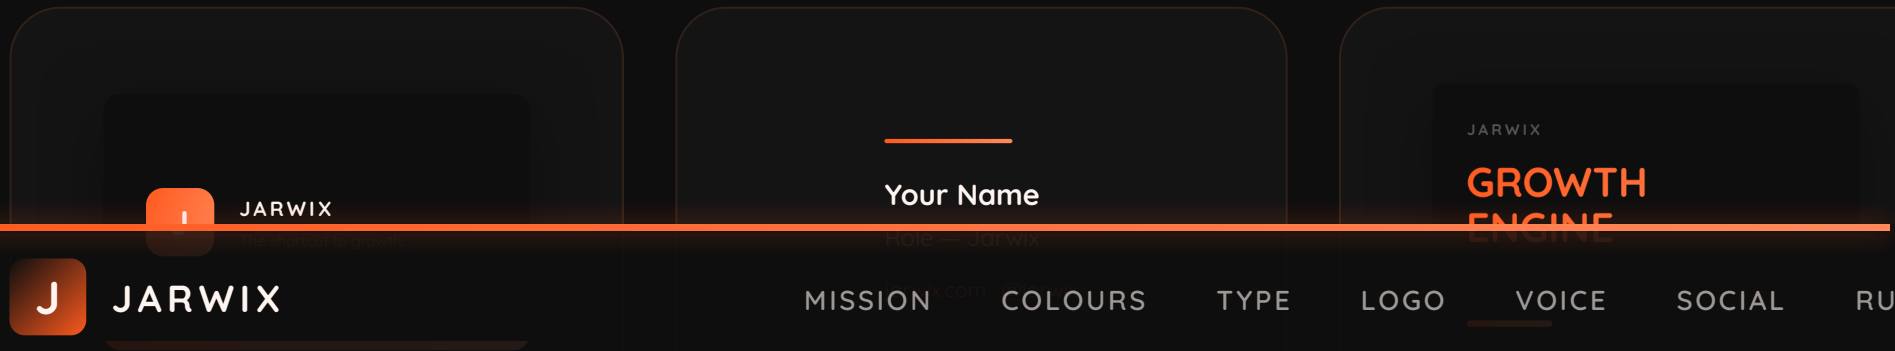
03 Headlines in uppercase Hanson Bold. Body text in Quicksand. No exceptions.

04 Brand gradient on CTAs, highlights, and accent elements only. Never full-background.

12

BRAND IN ACTION

How the brand system comes together across real-world touchpoints.



J JARWIX

MISSION COLOURS TYPE LOGO VOICE SOCIAL RULES

Business Card

Email Signature

Presentation Slide

Dark base. Gradient accent strip. Logo left. Minimal information.

Clean. Gradient divider line. Name in bold. No icons, no quotes, no images.

Dark slides only. Large type. Maximum 6 words per slide. No clip art ever.

Social Post

Bold statement. Dark background. Gradient accent. Handle always visible.

13

MOTION & ANIMATION

Every movement should feel intentional. Fast in, smooth out. Never bouncy, never sluggish.

Ease Out

`cubic-bezier(0.16, 1, 0.3, 1)`

Primary easing. Use for entrances, reveals, and page transitions.

Spring

`cubic-bezier(0.34, 1.56, 0.64, 1)`

Micro-interactions only. Buttons,

Linear

`linear`

Progress bars and continuous animations only. Never for UI

Starts fast, decelerates naturally.

toggles, small elements. Slight overshoot adds life.

elements.

Motion Principles

01 Duration

200–400ms for micro-interactions. 400–800ms for section reveals. Never exceed 1s.

02 Direction

Elements enter from bottom (translateY +20px). Never from the sides. Fade + translate, always together.

03 Stagger

Grid items stagger at 100ms intervals. Max 5 items staggered per group. Beyond that, animate as one.

04 Reduced Motion

Respect prefers-reduced-motion. Disable all transforms, keep opacity fades at 0ms duration.

14
